**Title:** Crisis in context: Minding the gaps in medical preparedness for a Rad/Nuke incident

**Dates:** July 30-31, 2019 (starting at noon on July 30)

**Location:** DoubleTree-Crystal City, 300 Army Navy Dr., Arlington, VA 22202

**Exhibitor/Host Registration:**

**WORKSHOP OVERVIEW:**
The Radiation Injury Treatment Network seeks to increase the understanding of and preparedness for the tremendous medical, environmental, and psychological consequences of a mass casualty radiological/nuclear incident for healthcare professionals. The 2019 RITN workshop will highlight recent developments in resource-constrained environments: (1) optimizing ARS initial assessment and triage, (2) ensuring the availability and appropriate use of medical and psychosocial supportive care, (3) disseminating the latest research in radiation-specific medical countermeasures, (4) applying technology as a force multiplier for care and education, and (5) enhancing collaboration among burn surgeons and RITN professionals. Additionally, the workshop will encourage open sharing of lessons learned from past efforts.

**ATTENDEE PROFILE:**
Physicians and other healthcare providers, support staff, hospital and hospital system administrators, emergency managers, research scientists, and appropriate federal agency staff involved in radiation response and treatment of patients with radiation-induced bone marrow injury are invited to attend.

**Anticipated attendance:** 170
